Dear ~~Harry~~: *Harry*:

I appreciated the opportunity to be of assistance on the Computer Study Panel and I hope our findings and recommendations did not present you with a "hot potatoe." It was enjoyable working with old friends again.

Last November you mentioned the Agency's executive reserve program and indicated that you were considering extending it to old retirees as well as new retirees. If you have done this and I am eligible, I would be interested in exploring this further. I gained a great sense of satisfaction in working for the Agency--an organization that I respect highly. If I could be of future service as a member of your reserve program I would like that. Please let me know.

Sincerely

CDMj/ms
